Privacy Policy

Effective date: October 1, 2026 · Last updated: October 1, 2026

Skelli-Sites ("Skelli-Sites," "we," "us" or "our") is a business operated by Mike Haddon in Tyler, Texas. We design, build, host and market online stores for small businesses. This Privacy Policy explains what personal information we collect, how we use and share it, and the choices you have.

The short version: we collect only what we need to run our business and our clients' stores. We do not sell personal information. Card payments are handled by Square and PayPal, so we never see or store full card numbers.

1. Who this policy covers

If you are...	Our role	What applies
A visitor to our website or demo stores, or a business owner we contact or meet	We decide how your information is used (we are the "controller").	This policy applies in full.
A client who buys our services	We are the controller for your contact, contract and billing information.	This policy applies in full.
A shopper at an online store we built and host for a client	The store owner decides how your information is used. We handle it only on their behalf (we are a "service provider" or "processor").	The store's own privacy policy applies. Section 3 describes what our platform collects for the store. Send privacy requests to the store. We will help the store respond.

2. Information we collect for our own business

Category	What we collect	Where it comes from
Contact details	Name, business name, email, phone number, business address	You, or public listings for your business
Messages	Name, email, subject and message sent through our contact form, emails, texts and calls	You
Sales visits and check-ups	Notes from in-person visits, your answers and scores on a free online store check-up, and publicly available information about your business's online presence (website, Google listing, social pages)	You and public sources
Client records	Proposals, Statements of Work, project files, brand assets, product content and support requests	You
Billing	Invoices, payment status and payment history. Card details are collected by our payment processor, not by us.	You and our payment processor
Technical data	IP address, browser type, and the date and time of requests. We use your IP address to limit abuse of our contact form.	Your device

If you ask us not to contact you again, we keep a minimal “do not contact” record so we can honor your request.

3. Information our platform collects for client stores

When you browse or buy from a store that runs on our platform, the platform collects the following for the store owner:

Category	What is collected	Why
Account	Username, email address and a password stored only in hashed (scrambled) form; date of last sign-in	To create and secure your account
Profile	First and last name, shipping address	To fill in checkout and deliver orders
Orders	Items ordered, order total, shipping address, email, order status, shipping carrier and tracking number	To process, ship and support your order and send order emails
Payments	Amount, payment method, status, the payment processor’s reference number and the last four digits of your card	To record and reconcile payments and handle refunds
Saved cards (optional)	A reference token issued by the payment processor, card brand, last four digits and expiration date. Never the full card number or security code.	To let you pay faster next time. You can delete saved cards in your account.
Shopping cart	Items in your cart, linked to your account or to a guest session	To keep your cart between visits
Approximate location	Your U.S. state. If you allow location access in your browser, your device’s coordinates are sent to a geocoding service to find your state. Otherwise your state is estimated from your IP address. Precise coordinates are not stored.	To pre-fill the shipping state, calculate sales tax and show available payment methods
IP address	IP address and time of last sign-in or visit	Security, fraud prevention and keeping your cart
Reviews	Product ratings and reviews you choose to post, shown with your username	To display customer reviews
Contact form	Name, email, subject and message	To answer your question

Some stores accept donations. Donation orders collect the same payment information as other orders.

4. Cookies and similar technologies

Our website and the stores on our platform use a small number of cookies and browser storage items that are needed for the site to work. We do not currently use advertising cookies or third-party analytics trackers.

Name	Type	Purpose	Lifetime
access_token	Essential cookie (not readable by scripts)	Keeps you signed in	About 15 minutes, renewed while you are active

Name	Type	Purpose	Lifetime
refreshToken	Essential cookie (not readable by scripts)	Renews your sign-in securely	Up to 7 days
sessionId	Essential cookie (not readable by scripts)	Set for every visitor. A random ID that remembers your shopping cart before you sign in	Up to 7 days
cart	Browser local storage	Stores your cart on your device	Until you clear it or check out

Payment providers such as Square and PayPal load their own secure payment fields at checkout and may set their own cookies under their privacy policies. You can block or delete cookies in your browser settings, but sign-in, the cart and checkout will not work without the essential ones.

If we or a client store add analytics or advertising tools in the future, this policy and the store's policy will be updated first, and consent will be requested where the law requires it.

5. How we use information

- Provide, host, secure and support our services and our clients' stores
- Process orders and payments, send order confirmations and shipping updates
- Respond to questions, check-up requests and support tickets
- Prepare proposals, contracts and invoices, and collect payment
- Contact business owners about our services, including in-person visits, calls, emails and texts where permitted
- Run advertising and email campaigns for clients on Growth and Scale plans, using the client's own accounts and lists
- Prevent fraud, abuse and security incidents, and enforce our Terms of Service
- Improve the platform, fix problems and plan new features
- Comply with legal, tax and accounting obligations

We do not use personal information for automated decisions that have legal or similarly significant effects.

6. How we share information

We do not sell personal information, and we do not share it for targeted advertising. We share information only as follows:

Recipient	What is shared	Why
Store owners (our clients)	Information about their own customers, orders and payments	They operate the store and are the seller
Payment processors (Square, PayPal)	Payment details you enter in their secure fields, order amount, and for saved cards a customer reference	To process payments and refunds
Cloud hosting provider (Amazon Web Services)	All data stored on the platform	To host websites and databases

Recipient	What is shared	Why
Email delivery provider	Recipient email address and message contents	To send order, account and contact emails
Location services (OpenCage, ipapi.co)	Device coordinates (only if you allow location access) or IP address	To estimate your U.S. state at checkout
Shipping carriers and suppliers	Name, shipping address and order contents	To deliver orders. Chosen by the store owner.
Advertising and email platforms	Campaign content and, for clients who ask us to, their own customer lists	To run marketing for clients, in the client's accounts
Subcontractors and professional advisers	Project materials and business records, under confidentiality	Design, copywriting, accounting and legal support
Authorities and others, when required	Information required by law, court order or to protect rights and safety	Legal compliance and protection
A successor business	Business records, if the business is reorganized or sold	Business continuity, under this policy

7. Payment information

Card numbers and security codes are entered directly into secure fields provided by Square or PayPal and go straight to those companies. They never pass through or get stored on our servers. We keep only a payment reference, the card brand, the last four digits and, for saved cards, the expiration date. Square's and PayPal's privacy policies explain how they handle your payment information.

8. How long we keep information

Information	Retention
Sign-in cookies	15 minutes (access) and up to 7 days (refresh)
Guest carts and IP history	Up to 12 months after last activity
Customer accounts, profiles and saved cards	Until the account is deleted, or the store closes plus the 30-day export period
Order and transaction records	As long as the store owner needs them and as required for tax and accounting, typically up to 7 years
Contact form messages and emails	Up to 2 years after the last message
Prospect and sales visit records	Up to 2 years after last contact; "do not contact" records are kept until you ask us to remove them
Client contracts, invoices and project files	For the life of the relationship and up to 7 years afterward
Client store data after a plan ends	Available for export for 30 days, then deleted from active systems; backups expire within 90 days

We may keep information longer where the law requires it or to resolve a dispute.

9. How we protect information

- Passwords are stored only as salted hashes, never in readable form.
- Sign-in tokens are kept in cookies that scripts on the page cannot read, and expire quickly.
- Card data is tokenized by the payment processor, so full card numbers never reach our systems.
- Websites are served over encrypted connections (HTTPS).
- Admin tools require a sign-in with administrator permission, and access is limited to people who need it.
- Data is backed up regularly, and software is kept up to date.

No system is perfectly secure. If a security breach affects your personal information, we will notify you and the affected store owner as the law requires.

10. Your choices and rights

10.1 Access, correction and deletion. You can ask us for a copy of the personal information we hold about you, ask us to correct it, or ask us to delete it. You can update your profile, change your password and remove saved cards in your account at any time.

10.2 Texas residents. The Texas Data Privacy and Security Act gives Texas consumers the right to confirm whether their data is processed, to access, correct and delete it, to obtain a portable copy, and to opt out of the sale of personal data, targeted advertising and certain profiling. We do not sell personal data or use it for targeted advertising or such profiling. We honor these requests from anyone, regardless of where you live.

10.3 How to make a request. Email haddon.mike2@outlook.com or call 903-275-0013. We may need to verify your identity. We will respond within 45 days. If we decline your request, you may appeal by replying to our decision, and we will review it and respond within 60 days. Texas residents who are not satisfied may contact the Texas Attorney General.

10.4 Shoppers at client stores. Please send your request to the store you bought from. If you send it to us, we will pass it to the store and help them respond.

10.5 Marketing messages. Every marketing email has an unsubscribe link. Reply STOP to opt out of texts. You can also ask us in person, by phone or by email to stop contacting you, and we will.

10.6 Location. You can decline or turn off location access in your browser. You can always choose your state manually at checkout.

10.7 Sensitive information. We do not ask for sensitive personal information such as government ID numbers or health information. Precise device location is used only with your permission, as described in Section 3, and is not stored.

10.8 We will not treat you differently for exercising any of these rights.

11. Children's privacy

Our services are intended for businesses and adults. We do not knowingly collect personal information from children under 13. If you believe a child has given us personal information, contact us and we will delete it.

12. Where information is processed

We are based in Texas, and information is stored and processed in the United States. Our services are intended for customers in the United States.

13. Links to other sites

Our website and client stores link to other sites, such as shipping carriers' tracking pages and payment providers. Those sites have their own privacy policies, and we are not responsible for their practices.

14. Changes to this policy

We may update this policy as our services change. We will post the new version here with a new effective date. If the changes are significant, we will also notify active clients by email.
